Hi Kenneth,

I don't have further comments on the SAP except the use of groundwater vs ground water throughout the report.

Tks & Rgds,
Alethea Tsui-Bowen

Subject: Lane Plating SAP for phase 2 of RI.

The SAP is attached. It is only 37 pages, so please send comments by Nov 15. Remember that this will probably be our last sampling event so we want to make sure we have everything we need to complete the RI and both risk assessments.
